

COVID-19 Vaccine Confidence Survey Social Media Post Toolkit

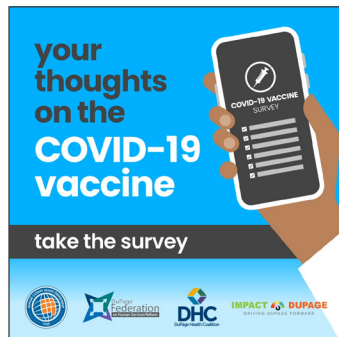

www.surveymonkey.com/r/COVID19VaccineDuPage

Introduction

The Health Equity and Access Response Team (HEART) is surveying DuPage County residents to gain a better understanding of questions and concerns that people have about COVID-19 vaccination. While today we are seeing a high demand for vaccine with a very limited supply, we are listening carefully to the concerns expressed by community residents that may be reluctant to sign up for vaccination, or may be having a difficult time with current distribution strategies. The survey will be available in the seven languages mostly commonly spoken in DuPage County with a desire to reach as many communities as possible, particularly those disproportionately impacted by COVID-19. It will remain open through March 7th. Your help sharing and promoting participation in this survey will help to ensure we get the valuable feedback we need. HEART would greatly appreciate the assistance of municipalities (Villages, Park Districts, Townships, etc.), non-profits, schools, healthcare providers, faith partners and community leaders in promoting the survey to their networks through whatever channels feel most effective.

If you have any questions about the survey or the work of HEART, please contact Mila Tsagalis at mtsagalis@dupagehealth.org.
